My dear Sir,

I cannot understand why you should have a shortage in cards. The cards are carefully made up in packets each month by our mailing clerk at Lancaster and each second month two months cards are sent out by mail to subscribers. They have been sent to you as to the others. I can explain the difficulty in one of two ways either (1) The mails have failed to bring some of the packages. or (2) There is an error in your count.

You can test the former easily by taking the numbers of the Bulletin for 1900 and selecting titles at random in the "Index of Recent Literature" see what months are missing. If ~~they~~ ^{any} are missing I can

Dear Sir:-

I send ~~with~~ ^{at} this time
a package containing a few grasses
that have ^{troubled} ~~troubled~~ one ~~of~~ ^{me} to name
satisfactorily. Will you kindly ~~not~~
~~name them~~ ^{for me} at your leisure,
~~but~~ ^{as} if not too busy otherwise?

Respectfully

G. F. G.

In sending specimens of plants for investigation it is desirable to include the entire plant; if it is too large, portions showing leaves, flowers, and fruit are sufficient. It is best to prepare the specimens by drying them under pressure between folds of absorbent paper, otherwise the parts may shrink and break so as to be hardly recognizable. When dried plants are sent they should be protected from breakage in the mail by being inclosed in sheets of paper between pieces of stiff pasteboard. If specimens are to be sent fresh, moisten them slightly and pack them tightly in a box or in a bundle, wrapping them in heavy paper. Write the name of the sender on the outside. In the letter accompanying the specimens state where each plant was collected, the date, the name of the collector, and add any other notes in regard to the economic value of the plant.

Packages weighing less than four pounds may be sent by mail at the rate of one cent per ounce.

U. S. Department of Agriculture,

BOTANICAL DIVISION,

Washington, D. C., Dec 29 1892

W. J. J. Collins

106 East Avenue, Providence R. I.

Dear Sir

Your letter and the parcel of plants were duly received, and are this day returned with the names appended so far as I can determine. One of the Poas is too young for a satisfactory analysis but I think is *P. nemoralis* L. It should be collected again in mature condition. *P. serotina* is sometimes classed with *P. nemoralis* but I think is distinct. The No 2 is apparently a form of *Alopecurus geniculatus*, but is unusually large, although we have specimens nearly as large. It will bear further observation in different stages. No 5 is an unusual *Eragrostis*. It comes nearest *E. minor* of any species so far as our specimens show, but is smaller than any we have. If it be that species it should be an introduction from Europe. I would be glad to have some specimens of it for our herbarium, and of the *Alopecurus* No 2.

Very truly yours
Geo. Vasey

My Devonshire to
Boston June 10 1908

My dear Mr. Geerin:

It happens that,
as the Suspi Plant has
"flashed in the pan" - I
am lookin' out for some-
thing to do for my vacation.
As Mrs. Ware will be
unable to join me either
in July or August - I
am disposed to have my
two or three weeks taken
in the character of a
botanical trip - or at least
to make my plans with
reference to some good
collecting. Judge Churchill

I have talked Fort Kent
Maine a little - where
book of no has hoped
to go some time - and
we are wondering if it
chances that a plan
to go there - would
interest you - & if you
would go - ~~We would~~
~~be~~ If we were to do
that or a similar trip -
a party of four or more
would be better than
two - & so we would be
glad to find the
right ones to join in it

We are not committed
to what point we may not go.
but we are discussing
possibilities - I have
thought for myself, I
might attend the meet
of the Federation on July
Washington July 1-8, or
a part of the time perhaps -
then I would have a week
or two more to dispose of
Judge Chamberlain having been
here at his last session
has no special desire
to do it again -
Should the strike a
responsible chord - I
shall be glad to hear
from you in Robert Allard

~~15/10/22~~
Mr. Fernald has recommended me that
you & he consider going to repair of East-
port - At Crois River etc., Maine - I am
wondering if this might work out - in
lieu of the Fort Kent region plan - about
which I wrote you. This is all in
the air - but by thrashing the bush
a bit - something may come out.

Yours
R. P. Ware.

Ref. 12

June 12, 1908.

Dear Mr. Moore:

Your letter of the 10th strikes a "responsive chord". Unfortunately, however, that matter that interfered with my giving a decided answer in regard to the proposed Gaspe trip still remains in doubt. I may not know about it until about the 1st of July, although I hope to before many days. If you and Judge Churchill plan something I should be glad, if you can do it without in any way interfering with your individual arrangements, to have a little niche left open for my benefit in case I can make the connection later.

Fort Kent, Fort Fairfield, St. Francis, the Aroostook Gorge, and many other places in Aroostook County might be worked profitably. Personally I have got more or less of the pioneer spirit in me; this prompting me to favor the uncultured places rather than the ones that have received some attention. You had better not definitely plan on my becoming a member of the party, at least not to the extent that it would disarrange plans if I should not be able to go at the last moment.

Cordially yours,

Dear Mr. Collins'

Vacation trip is pretty indefinite - The new Washington buildings are burned - so I shall not go there. As to Fort Kent or Eastport - we have it but anyone yet who cares to plan to go Judge Chubbill would like to take his wife - but would like also another lady in the party for her companionship - I know so little of the localities - that I do not feel equal to laying out a trip - with the possibility of your going however - will you find it convenient to make some suggestions as to where to stop (hotel) etc - at Fort Kent, do you know aught of the Eastport upon suggested
cordially yours

Robert A. Ware,

46 Devonshire St

June 24 1908

over

I expect I may have some
surplus of dryers - on an
order I am making - Do
you want any?

June 25 1908

Dear Mr. Ward:

When I heard of the fire at Ft. Washington I thought of you at once and wondered if you would share the loss of property so severely elsewhere in the mountains. If I knew anything definitely in regard to your vacation I should be inclined to let you know it in regard to "G. Minot" and his forces. At the time it often seems like a curse to be left out of a list of names at once.

I am sending you my best regards. I know absolutely nothing about dryers, but I have been told by Captain [unclear] at Ft. Lee that they are to be had at the "Cotton Mill" in Paterson. At Ft. Lee there is a large dry house which is reported to be run by Mr. McKinney (or McInney). I have been there several times. The place is not all that bad, but the rooms are rather good and they heat you well.

If I ever think that I may have to pay for a dryer, I really have got to need, but if they are some specially nice ones I may be even tempted if I see a sample.

Cordially yours,

3 July 1908

Dear Mr. Ware:

I have just had a telegram from Washington which means that I have a government position for the summer, so I cannot join you as I had inwardly hoped would be possible. I feel however that I cannot afford to ignore such an opportunity, as it will mean that there will be some income rather than a continual outgo as in all previous summers for many years. This is the matter that has made me hold off in regard to the proposed Gaspe trip some time ago, as I knew several months ago that there was a possibility of something of this sort for the summer. I have only just learned of the fact however. I have been inwardly (secretly) hoping for some time that the thing would not (from the point of view of real pleasure) develop, as I know I would have a better time with you and Churchill than now seems likely. Moreover I shall not have the cool weather of Maine and northward, as I expect to be at various places between here and Virginia most of the summer. I dread the hot weather that I expect to encounter.

I wish you a very pleasant and profitable summer. I shall be much interested in your summer plans, feeling that your good times are what I might be ~~enjoying~~ have been enjoying under other circumstances. I hope you will not hesitate to ask any and all questions about Maine that you think I may be able to answer for your benefit.

Cordially,

I am glad for you for what's
come - & hope it will work out
pleasantly as well as otherwise.
I think I'd leave Friday night for
Fort Kent (Dickey House) about 7:30
Saturday - If any suggestions occur to
you I offer - they will be appreciated.
We may not get far from our base,
but we shall be active while there.
Expect to be there about two weeks
only. - Best wishes to you.
I wonder how much time it is to ^{by} Ottawa.
there in Labrador.

July 8, 1908

W. H. GORE

Your card has just arrived, and as I have a few minutes before I start for the T. & A. train tomorrow to write you a few lines.

1- At Lamoine Falls, if you go up the river, it is of some value to go up Fort River. I hope I have told you about Ft. L. that it is a good place for trapping.

2- The Fish River falls about 60 ft. The water is low, by a road-boat you can cross the main road at the foot of Robbins' Harness Shop.

3- The shores of the river above just east of the village, about a mile.

4- Loveridge. The boat side especially (various species of lobsters, etc.)

5- The shores of the lower Allegash River if you can get someone to guide you a few miles up the river in a canoe or dugout.

6- St. Francis Plantation, above on the river, etc.

6- St. Francis River, either the N. E. side which can be reached by carriage, or the Maine side which can better be reached, perhaps by means of canoe.

4, 5, and 6 might easily be taken in 2 to 4 days trip from Ft. Kent.

7- Frenchville, some miles down the river from Ft. L.

8- Fish River lakes; can be reached by I.L. I suppose, certainly, and perhaps better by carriage.

I wish I could join you in this trip and so go over old ground a little more thoroughly. Kindly remember me to Judge Churchill and Mrs. C. if she goes with you. If you have never been to the gorge of the Aroostook River (reached from Ft. Fairfield) you may feel well paid in taking the trip.

Cordially,

IN REPLY TO THIS REFER TO

Dear Mr. Collins:

We shall miss you from
the October meeting of the Club.

I will gladly make note of anything
which I think will be of interest &
you - in accordance with your
suggestion.

Yours truly,

Robert Allure

Sept. 29. '913

468 Hope Street,
Providence, R.I.

March 7 1916

Mr. Robert A. Ware,
246 Devonshire St.,
Boston, Mass.

Dear Mr. Ware:-

I have been rather busy since I saw you last Friday evening, so I have delayed answering your query about Habenaria ciliaris. I thought I could get the information to you before the plants bloomed.

I have in my own private herbarium two specimens with the following labels.

Schönfeld, Richmond, R.I.
J.L. Boland. July 30, 1866.

... Kingston, R.I.
(by trotting park) August 5, 1894.
J. Thos. Smith.

"Schönfeld" is, I believe, the former estate of the late S. Herbert Chedd, formerly City Engineer of Providence, R.I.

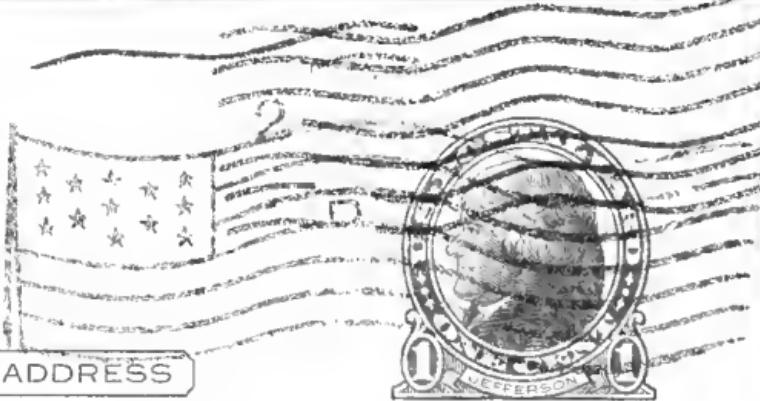

If you are on the trail of the plant and want a companion, or need a guide to find the trotting park (now the ^aFir Grounds) which is within sight of the Kingston Station, I would be glad to accompany you if you go at a time when it is possible to get off duty. I assume, of course, that you would probably go about August first.

Cordially,

Thank you for looking up the Habenaria butter
& for your suggestions as to possibly getting it
I made notes on my calendar with reference
to following it up next season -

It is very good I can suggest the possibility
of your joining me & it would be a pleasure to
undertake the mission under such welcome guidance.

I find pleasure in thus following up particulars
things - They make a good objective & even if they
is not realized there are pretty likely to be a lot of
incidental things. I'll have this in mind next
summer - and may be can follow it up.
I infer from what you write "that about Aug. 1st" would
be the proper time - Cordially yours Robert Wallace
Devonshire or Boston 3/7/16

THIS SIDE OF CARD IS FOR ADDRESS

Prof. J. Franklin Collins
468 Hope St.
Providence
R.I.

246 Devonshire St.
Boston July 14. 1916

My Dear Collins -

I am not sure that I shall be able to complete the expedition for *Habenaria ciliaris* - even if the way seems open - But I am writing to query if you are to be about home at the proper time for that - and also to ask what time would be required for the ~~advantageous~~ pursuit of the object in mind -

It is probable that I shall leave business for a two weeks vacation on Saturday August 5 - Saturday evenings and Sunday's are about all the time I am free to undertake field trips - I could go down Saturday or Sunday July 21 or 22 - or the week later - the 26th or 29th I am inclined to think that any of these dates would be rather early

What do you think? ~~about~~ I

Suppose a Saturday am. would hardly give
one time to make the trip - as I could not
leave Boston before noon - probably if I
am to do it at all this year - Sunday - the
last Sunday in July would be the best time
for me -

I have been in the field none
this season - I have acquired my normal
strength after my cure with pneumonia
and tire easily - Consequently I have walked
little. and this trip, if it involved much
tramping - I would think best to postpone
for a future season -

Write me please at your convenience -
of course frankly so far as your own
disposition or the possibility of your going -
are concerned.

Conrad C. Bang

Brent Alvaro

468 Hope Street,
Providence, R.I.

July 16, 1916

Dear Ware:-

I have your letter of the 14th After reading it over carefully I got the idea that it would suit you just as well, and perhaps a little better, if the trip was postponed to another season----insofar as you are not yet "up to the scratch" on tramping and that you are to have a vacation during the time that the Habenaria might be expected to bloom this year. I am going to own up ^{frankly} that just at present I feel very much in the same way about it, although my reasons are somewhat different. Neither of us know just where to go to find the plant and this fact might lead to a long tramp, or even "a wild goose trip". The way things are blooming ^{now} here I should hardly expect the Habenaria to be in bloom this year before the middle of August, or rather the first half of August.

If you think you would like to try an exploration trip in the hope of finding it I shall be glad to join you if regular duties do not interfere Just at present I am very busy, and so far have taken very few trips on which I could do any collecting.

Cordially,

24 Devonshire St.
Boston July 17. 1916

My Dear Collins.

Your letter of the 16th is in hand.
I think I had best give up the attempt
to see the Huberian this year -

I have just spent the weekend in
Northboro - Worcester Co. - a new region for
me. - Ordinarily I should have tramped
about for what I might find in the lime
of new ^{botanical} circumstances - for I have been very
little in that country. But the short walk
of two or three miles - in what was a very
comfortable summer day - was quite all
I wanted - and enough to tire me -

If continues we shall I cannot easily
commit myself to a day's or a half day's tramp.
So I will not consider the R.I. trip further
for this year. Thank you cordially for
your disposition toward the proposition.
I appreciate it.

I expect that on August 5 - or 12 -

My wife and I will go to ~~Greenfield~~ Deerfield -
Mass state for two weeks or so - but shall
be rather quiet there - my activity depending upon
how I feel there - Botanically that is an
interesting region - But also - the town has
much historical value which is interested
in the past - and the retention and revival
of many of the good features of the living
of generations ago - Among other things
is the revival of many of the old home
industries - which has been quite pronounced.

With all good wishes - I am

Sincerely yours

Robert A. Ware

78 Orange Street.
Brooklyn, N.Y.

Apr. 22, 1901.

Dear Mr. Collins,

Many thanks for the
beautiful specimen of *Hicoria*
fuscescens Eatonii. Perhaps you would
like a small specimen of the Southern
Hemicorypha in exchange. I am sorry it
is not larger. Mrs. Shuster gave me
what she did not wish to keep for
herself, but she did not collect in
large quantities. It happens, however,
to be in good fruit.

Very truly yours,
Edith A. Warner.

78 Orange St., Brooklyn
Apr. 24, 1901.

Dear Mr. Collins,

The moss is undoubtedly *Octoblepharum*. I am much obliged to you for the correction. I have never seen it nor *S. minus* & *plus* either. I had learned it in mind and hastily assumed that if it were *Recobryum*, it must be the minus. I shall endeavor to be more careful hereafter, when I am looking at mosses from new localities.

Very truly,
Edith A. Warner

THE BRYOLOGIST

78 ORANGE STREET

BROOKLYN N.Y.

March 4, 1910

Dear Prof. Collins,

Mrs. Smith incloses a letter from Prof. Holzinger and asks if you will kindly note the marked paragraph. His collection was made in 1902.

If you would indicate in his list, also inclosed, the species that have since been discovered elsewhere, Mrs. Smith would be greatly obliged. She has not "catalogue up-to-date."

Mrs. Smith is still unable to use her right hand, but is becoming quite skillful with the left, as you may note from the list which, she copied.

Yours very truly

Edith A. Warner.

Reply to
Mrs. Smith

Dec 11, 1907

My dear Dr. Warnstorff:

Some months ago I wrote you asking if you would care to examine my Sphagna. I have recently learned that you no longer live in Neuruppin, so, I suppose, as I never had a reply, the letter must have miscarried.

I have quite a number of specimens of *Sphagnum* which ^{were} collected in New England and Gaspe. Gaspe, as you may know, is a peninsula at the mouth of the St. Lawrence River which has not, as a rule, been much visited by botanists.

I should be very glad to send you specimens, which you may keep, in return for the names, when you have time to determine the specimens. Would you care to have me send them to you?

Very truly yours,

Neuruppin, den 13/4 95.

Sehr geehrter Herr auf Ihre gefällige Anfrage in-
betrifft der Tamm. südeurop. Laubmoore sehe ich
mich, Ihnen ganz ergebenst mitzuteilen, daß dr. I.

468 Hope Street, Providence, R. I., U. S. A.

Jan. 14, 1908.

Dr. C. Tarnstorff,

My dear Sir:

I am sending at this time a package of 167 specimens of *Lphagnun*, collected in New England and eastern Canada. Many of the specimens are not as abundant as I could wish, but they represent half or more of what I have. If any of them are too scanty to study please do not attempt it. I should be very glad if you would send me the names, together with the corresponding numbers, after you have determined them. You need not take the trouble to return any of the specimens. I hope you will find the specimens of sufficient interest for you to feel paid for naming them.

I inclose the labels for the species enclosed herewith.

Very truly yours,

133

Sehr geehrter Herr Professor
Priesterau, d. 27. März 88
Ringstr. 55^I

Hochgeehrter Herr Professor,

endlich habe ich die Untersuchung
Ihrer grossen Sphagnum-Sammlung beendet,
und ich bedeile mich nun, Ihnen unverzüglich
meine Bestimmungen zu übermitteln.
Bei dieser Gelegenheit erlaube ich mir
Sie darauf aufmerksam zu machen, dass
ich zum 1. April 1909 mein grosses
Sphagnunderbar als ein Museum billig
verkaufen will. Daselbst enthält nach
ungefährer Schätzung circ. 30000 Sammlungen
aus der ganzen Welt u. dürfte die wertvol-
lste Sammlung von Torfmoosen sein, die
gegenwärtig existiert. Ich fordere keines
bestimmten Preis, sondern erwarte bis zum
1. Oktober d. J. Preisangebote. Würden
Sie vielleicht die Güte haben, in einem ameri-
kanischen Journal auf den Verkauf empfeh-
lend hinzuweisen?

Mit vorzüglicher Hochachtung

ergebenst

C. Vossendorf.

Friedenau the 27 March 08
Ringstrasse 55th.

My dear Professor:

I have at last completed the examination of your large collection of sphagna, and I hasten to inform you of my determinations. I permit myself at this time to inform you that I intend to sell cheaply about 1 April 1909, my large herbarium of sphagna to a museum. This contains on rough enumeration about 30000 specimens from the whole world, & is probably the most valuable collection of sphagna in existence at present. I set no definite price upon it, but shall await bids until 1 Oct 1908. (of this year) Will you perhaps be kind enough to give notice of the sale in an American [botanical] journal.

Very respectfully yours,

C Warneck

April 16, 1908

Dr. C. Wernstorff,

Friedenau, Germany.

My dear Dr. Wernstorff:

Your letter containing the names of the Sphagna that I sent you came a few days ago, I thank you very much for the same. I shall take pleasure in notifying one or two botanical journals of your intention to sell your magnificent collection of Sphagna next year. I sincerely hope that some museum in this country may be able to purchase the collection if you do not decide to keep it in your own land.

I am very much interested in the new species of Sphagnum (S. Fazonii) which you have translated in the current Rhodora. Do you know where I can get a specimen of it?

Very truly yours,

Cambridge, Apr. 25/91

My Dear Sir,

Your Callipepla is correctly named, & I cannot account for the change in the wording of the range given in the Manual by which it is left out of N. England. It is very much common species, from N. Worcester to Fla. and westward. *C. heterophylla* has just been sent me from N. Bedford. I am always glad to get specimens illustrating the range of our species.

Yrs. very truly George Watson

HARVARD UNIVERSITY.

CAMBRIDGE,

March 9, 1892.

SIR :

It is with great regret that I inform you
of the death of

SERENO WATSON,

Curator of the Herbarium, which occurred on the 9th
instant in the sixty-sixth year of his age.

The funeral services will be held in Appleton Chapel
on Friday, March 11th, at 2.30 P.M.

Your obedient servant,

CHARLES W. ELIOT.

P. B. Betts 104
East Hartford, Conn

24 September, 1906

My dear Sir:

Mr. Long has asked me to send you some specimens of the Cochlidium cirsifolia which I collected here last fall. I am sorry to have to say that my moss-collecting has been of a quite desultory and accidental sort and that, having no idea that I had a prize, I collected but little of this particular species. I send you, however, a couple of fragments now; later when the plants are more mature, I will try to get you more and better material.

I have found C. cirsifolia at two stations in this town, about a mile apart - in both cases on sandy, partially shaded banks at the margins of a water-course. Very likely a careful search would reveal considerably more of it in the sandy swamps of this locality.

With apologies for the meagreness of my specimens,
Yours,

Very truly yours,

A. W. Seaberry

Prof. J. Franklin Collins
Brown University

East Hartford, Conn.

Nov. 10, 1906

My dear Professor Collins:

I am sending you today some
more material of Cochlearia cirkla - pretty badly
pressed, I am afraid, but, at any rate, more abundant
than last time. Sincerely yours,

"C. A. Weatherby

St.

R. I.

East Hartford, Conn.

16 November, 1906

My dear Professor Collins:-

Thank you very much for the reports I am glad to have the check-list, and the other is interesting and helpful to me, as a beginner in moss-collecting. The little trick of shellacking the earth which clings to the specimens I am particularly glad to learn: for I have been astounded and rather dismayed at the extraordinary tenacity with which mosses hang to thin substrata.

I have done some little work with seed-plants but have never gathered mosses until within the last year. Naturally, I am still in a pretty dense state of ignorance concerning them; but, so far as I can, I shall always be glad to get news from you in the way of getting material. I will try to get some *Polytrichum* for you, if you still want it.

Very truly yours,

C. F. Weatherby

Mr. J. F. Collins

Dear Sir -

I know very
little about Wallum Pond
but it lies, I believe, partly
in Rhode Island & partly
in the town of Douglas
Mass. - The nearest sta-
tion on the N.Y. & S.E.R.R.
is at Old Douglas, which
is from 3 to $3\frac{1}{2}$ miles
distant from the pond, with
a good road between the
village & the pond. - The
hotel (Dudley's) at the
village could furnish

teams if desired -

At one point the R.R. approaches the pond some -
what nearer, about 2
miles, with good road
between the parish & the pond,
and very likely an arrange-
ment might be made
for the cars to stop at
that point for a excursion,
if the party were sufficiently
numerous -

I give you the facts as
accurately as I can
ascertain them, and trust
the information may be
satisfactory to you -
Very respectfully

Geo. C. Webber.

Wellesley Mass April 30 /86

J. F. Collins

My dear Sir

I am very glad if I was able to contribute in any way to the success of the excursion which you & your friends recently made to Wallum Pond, and thank you for the account of which you so kindly sent me - I was glad also to learn that you found the double even more feasible than I had represented -

Yours very despy

Geo. C. Webber

Millbury Mass

June 10. 1886.

Shaftsbury Sept 17-1901

Mr. Collins

Dear Sir.

Your kind letter received, and in answer will say I would be very glad to have the pictures, and will also say that Mr. Webb is still very much appreciate your kind intention of sending him one. You may consider it as my absolute ready gift to him.

Mr. Webb wishes to be remembered to you, and hopes you may be well and prosperous. You will find me often writing also.

Respectfully,

Martha J. Webber

Cambridge, Mass., Jan 9 / 1900

Dear Mr. Collins:

I send you a list
of some of your mushrooms.
Of the others, some will
be determined later, others
will probably remain in
doubt, at least specifically,
owing to the immaturity
or insufficiency of the
material. Some of these
can doubtless be determined
by an older hand at the
business.

Cordially yours

Hollis Webster

Dear Sir. I am sorry to hear that the copy of Bustam.
was an incomplete one. An other copy of this work is in stock,
which contains the missing pages between titlepage and preface:
plates 4.5.6. in Lecture V but plate 35 in Lecture
4 is also missing. If you like I can send you the missing
plates 4.5.6 of Lecture V. and the 4 pages but I will not
be able to procure plate 35 of Lecture IV. If under these cir-
cumstances you like to keep the sent copy please inform
me by mail otherwise please return it to me and I will give you
credit for it.

Yours truly

Dear Sir,

Referring to my respects of February 24th I am very sorry to state that you did not reply whether or not you like to have my paper "HERBARIUM" regularly. Meanwhile I have supplied you with very interesting catalogues, recently with N.S. 144, which, I think, will be of some use for you or for the Library of the Brown University. If you will be kind enough to let me have the orders from the University I shall consider it as a great favor, and I beg to ask you whether or not you like to be put on the list of subscribers for GANDOGER, Novus Conspectus Flora Europae.

Are you interested in

MUSCHLER, Manual Flora of Egypt?

If so, I shall be glad to be favored with your kind order at an early date. Please find circular enclosed and remain, dear Sir,

Yours very respectfully,

*Oswald Weigel

LEIPZIG.

Dear Sir,

I beg to confirm the despatch of
my catalogue

N. S. 153: Cryptogamae

which I am sure will be of some interest for you.

We had a little correspondence in February of this year,
from which I learned that you are particularly interested in mosses. I am
under the impression you like to have

ROTH, Die aussereuropäischen Laubmoose,
and I shall feel bound to get your order by return of post. Order-label please
find enclosed.

Hoping that you will let me have your esteemed commands
from my catalogue N. S. 153 very soon and those of your University, I remain,
dear Sir,

Yours very respectfully

Brownstone, R.

A. S. A.

Hochgeehrter Herr!

Bei Durchsicht meiner Bücher finde
ich Ihr geschätztes Konto mit
Mark

belastet und wäre Ihnen für baldige
Einsendung des Betrages verpflichtet.

Ich gehe wohl nicht fehl in der
Annahme, daß Ihnen die Erhebung des Be-
trages durch Postauftrag oder Tratte
erwünscht ist, falls Sie bis zum

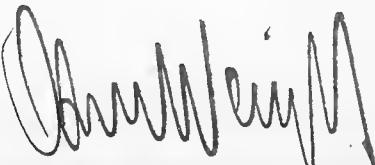

17. Februar 11.

Deckung nicht einsandten.

Da sich meine Preise gegen Barzahl-
lung verstehen, so bin ich gezwungen,
uneingelöste Postaufträge sowie zurück-
gewiesene Tratten meinem Rechtsbeistand
zur weiteren Erledigung zu überweisen.

In der angenehmen Erwartung bald
und oft von Ihnen zu hören und mit der
Fortsetzung Ihrer geschätzten Aufträge
beehrt zu werden, empfehle ich mich
Ihnen und zeichne

Mit vorzüglicher Hochachtung

Jan. 22, 1912.

Mr. Oswald Weigel,
Königstrasse 1,
Leipzig, Germany,

Dear Sir:-

I returned last evening from a 5 weeks absence from home and found your letter of Dec, 14, 1911, awaiting me.

I had supposed that his bill had been paid until I saw your letter last evening. Upon making a search I found your bill unpaid, and inclose it herewith.

I wish to apologize to you for overlooking the matter so long. I did not for a moment imagine that it had not been paid, until I got your notice.

Very truly yours.

P. S. Today I paid to the post office here the sum of M.6.48 in your favor, payable to you at the Leipzig post office.

Oswald Weigel
Antiquariat & Auctions Institut

P R O V I D E N C E
----- E.I.
U.S.A.

Dear Sir,

Your payment for M. 6.48 came duly to hand,
and in thanking you for it I beg to give you quittance on the other side.
I profit of this opportunity to send you my list 29 in
the printer's sheet and shall be glad to be favored with the continua-
tion of your esteemed commands.

Believe me to be, dear Sir,

Yours very respectfully,

A handwritten signature in cursive ink, appearing to read "Oswald Weigel". Below the main name, there is a smaller, less distinct signature that appears to read "C. H. Grumpe".

Providence, R.J.
U.S.A

Dear Sir,

Together with the paper "Herbarium" you will have received my small lists which are forming supplementary parts to my scientifically arranged catalogues I publish from time to time.

I do not remember to be favored with an order by you and I am under the impression you do not like to buy botanical books at present. Perhaps you prefer another line, and in that case a short information will greatly oblige.

Permit me to call your kind attention to my old auction-institute established 1797 which is publishing scientifically arranged catalogues in every kind. Please let me know what line you prefer, and I shall not fail to send you my catalogues immediately when out.

I shall consider it as a special favor to be recommended to your friends or to get exact addresses of them in order to apply myself to them by handing catalogues or quotations.

Thanking you in advance I hope to hear from you very soon and to be favored with your esteemed commands; meanwhile I remain, dear Sir,

Yours very respectfully

Oswald Weigel

December 14, 1913

Mr. Oswald Seigel
Königstrasse 1,
Leipzig,
Germany.

Dear Sir:-

Your letter of about a month since was duly received by me.

For more than two years I have been so busy that I have not taken the trouble to order books of you direct, although several that I have seen on your lists have been ordered for me. I have kept pretty close watch of your catalogues and when I have seen anything that I have wanted I have telephoned to a friend of mine here in Providence who is a bookseller; and he has obtained the book for me. In this way I have purchased several books on your catalogues indirectly through other people.

I think this will explain why you have not heard from me for some time. I am still interested in Musci and Fungi.

Very truly yours,

OSWALD WEIGEL, ANTIQUARIAT UND AUKTIONS-INSTITUT, LEIPZIG, Königstr. 1

J. Franklin Collins, Esq., 468 Hope Street,
Providence. R. I. U. S. A.

Dear Sir,

Your favor of Dec. 15th came duly to hand,
and I am very obliged to you for your kind explana-
tions. I shall consider it always as a special favor,
if you will kindly examine my catalogues and order
your bids directly or by a friend of you and if you
will kindly recommend my old firm to your bookbuying
friends.

Believe me to be, dear Sir,
Yours very respectfully

Dear Sir,

You are subscriber to Roth: Die au^{ss}eureuropäischen Laubmoose, Appendix I of the 1st Vol. has been issued some time ago and in consequence of a mistake of one of my clerks sent to Mr. Collins in Eastham, who will be kind enough to send it to your address before long.

Meanwhile you will have received my new catalogue N.S.166: "Cryptogamae" and I hope it will induce you to let me have your esteemed commands at an early date.

Hoping to hear from you soon again, I have the honor to be, dear Sir,

Yours very respectfully

Oswald Weigel
O. F. Tupper

Newburyport,

11th mo. 15, '02.

Dear friend

J. F. Collier:-

At last I have the chance to open
an envelope that came to me by mail a few days ago
and find that it contains three extracts of thine from
"Rhodora". I ~~remember~~ having been interested in these
articles when they first appeared, so am glad to have
them handy for reference. Thanks.

I am not likely to see thee again until next
spring. regular attendance at our meetings being an
unjustifiable strain in several ways. But it is a sore
deprivation to have to absent myself.

Gincerely,

W. W. Endte.

What a gay old racket that Katahdin
trip was!

Recd FEB 15 1904

28 ESSEX STREET, STRAND,

LONDON, W.C., Feb 2. 1904

J. Franklin Collins, Esq., Ph.B.,

Department of Botany, Brown University,
Providence. R. I. U.S.A.

Dear Sir,

In answer to your letter of January 25th, we can still supply the following numbers which you have selected from our Catalogue No 141, and submitted to your library committee for purchase from our firm, viz:-

84. Grevillea. 22 vols (all published) 1872-94. £ 5. 10s.

99. Hooker. Botanical Miscellany. 3 vols. 1830-3. £ 3. 3s.

129 Linnean Society, Journal, Botany. 1-34. £ 15. —

191 Sowerby, English Botany 1790-1866. £ 57. 15s.

The set described in our Catalogue of "Sowerby's Botany" has been sold, but we can supply another, just as complete, 2998 coloured plates (all published) but it has been systematically arranged and bound in 25 volumes, the Vol 5 of the supplement is separately bound; a classified set is usually preferred in a botanical library, the set has been ~~carefully~~ ~~but~~ carefully collated and is absolutely perfect in every respect.

We are sorry that No 83. Greville's Scottish Cryptogamic flora, 6 vols, boards, £ 4. 18s 6d. has been sold, but we think we shall be able to supply a bound set for about £ 6, if it is ordered.

If the Librarian sends the order for these books direct to our firm, we should be willing to allow the payment to be divided into

instalments payable at intervals so that the payment may be completed within one year from the receipt of the books. On the same condition, namely that the order is sent to our firm direct and not through an agent, we are willing further

1. To make no charge for U. S. Consular Certificate, for cases for packing and shipping.
2. To prepay the freight to Providence, and take this expense upon ourselves, so that only the clearing and delivery from the station at Providence to the Brown University will be at the expense of the Library.

We guarantee all the books to be perfect & in good condition.

We have pleasure in reserving the books for one month from this date to enable you to pass the order through your Committee & for the Librarian to transmit the official order to our firm. Waiting favour of reply,

Yours very respectfully,
William Wesley & Son.

Dear Sir We have pleasure in mailing you the book ordered by your card of the 29th Jan. & enclose invoice which may be remitted in U. S. Postage Stamps \$1 1/2 or by International Money Order.

We wrote you on Feb 2 in answer to your letter of Jan 28th informing you that we had reserved the books which were to be ordered by the Brown University, with the exception of No 83 Greville, Scottish Crypt. flora, and this work we see by your subsequent post card of the 26th Jan you will not require as it is in the Library.

We note that your Committee meets on Feb 8th & that the order for the books they select will be sent to us by the Librarian, shortly after that date.

With thanks,

Yours respectfully,

W. Wesley & Son.

Dear Sir. We are obliged by your letter of Feb 26th
with stamps \$1 1/2nd for which we enclose receipt.

The books have been shipped to the Library of
Brown University and invoices have been sent to the
Librarian. We believe you will be pleased with the
condition of the books when you see them. The arrange-
ment as to payment made by the Librarian was quite
satisfactory.

In answer to your inquiry as to the dates of the
publication of the plates in Sowerby's English Botany,
first edition, we would refer you to the recent numbers
of the "Journal of Botany" (1903, 1904) in which a series
of articles has been appearing monthly & is being con-
tinued in which the dates are given accurately of the
plates in this work, as well as much other interesting
information.

With thanks,

Yours very respectfully

ONLY THE ADDRESS TO BE
WRITTEN HERE.

Professor J. Franklin Collins
Brown University Herbarium
Providence, R. I.,
U. S. A.

Magadie City. Aug. 2. 1890.

J. F. Collins. Esq.

Providence R. I.

Dear Sir.

I have learned from
W^r. Edward L. Rand of Boston that you
are making a special study of the
New England Mosses.

My plantation is at the foot of
Draw Mt. in Mitchell Co. N.C. and
am much interested in the Mosses.
I have thought that your more northern
forms would be highly interesting for
comparison, and that possibly you
would be interested in our mosses
from here in the same way. If you have
any list of duplicates for exchange, I
shall be glad to suit, and to send

and with my first class following
of course, and out on the other unless
when we have organized.
but I am a good fellow.
(Signed) A. G. McTethay

Montgomery Co., Pa.
July 28, 1916.

Mr. J. F. Collins:-

I take pleasure
in sending you the
specimen of *Polygonatum*
virginicum.

Sincerely yours,

Harriet Wheeler.

Chichester, N.Y.

July 18, 1898.

Charlton, St. L.

Jan. 29, 1902.

My dear Mr. Collins: -

Your note en.
closing money for payment
of Chaplin dues was received
yesterday and I send with this
a receipt for the amount.

I notice that the Chaplin
herbarium which now comes
to my keeping, bears evidence
of your interest in it. I hope
you will continue to enrich
it by your contributions.
I am anxious to see it grow

in real value as well as in
bulk and to this end I
hope for the assistance and
co-operation of those of expe-
rience and acknowledged
authority, whose decisions
and determinations will
make the herbarium a
reliable standard of reference.
I shall esteem it a pleasure
to care for the material that
comes into my hands.

Yours sincerely
Harriet Wheeler.

Chatham, N. Y.,
Jan. 13, 1903.

My dear Mr. Collins: -

Your letter en-

closing check for payment
of Miss Chaplin's dues was re-
ceived this morning. There
was no charge for collection.

If, at any time you have
specimens of mosses which
you will offer to Chaplin
members through the Bryol-
ogist they will be very ac-
ceptable and I shall be
glad to know of them.

Sincerely yours,
Harriet Whicker.

248 Lark St. Albany, N.Y.

Jan. 28, 1903.

My dear Mr. Collins:-

I am glad to know

that you have some mosses intended for distribution to Chaplin members.

We have a good supply for the March Bryologist, but I should be pleased to announce yours in the May number if that is a convenient time for you. Mrs. Smith wishes all her copy in hand a month in advance, and I should need to know in time to make up the list the latter part of March.

I think I had less than fifteen applications for the mosses I offered in November. Some of the commoner species are not much in demand, I suppose it depends on the rarity of the species. yet there are always new members and beginners who want the well-

species and it is well to offer them
from time to time.

Yours sincerely,
Harriet Shuler.

248 Lark St., Albany, N.Y.

Feb. 26, 1903.

My dear Mr. Collins: -

Your letter enclos-

ing specimen of *Mola phyllantha* has been received. The moss is new to me and to the herbarium also, I think. I am quite sure that it has never been offered and that it will be very acceptable. I have not the old copies of the *Bryologist* to refer to, but I am confident that Dr. Sudwigii has not been offered very recently.

With thanks for your interest and
help, I am Yours sincerely,
Harriet Wheler.

Chatham, N.Y.,
Mar. 21, 1903.

My dear Mr. Collins:-

Your note of the
19th is received, together with the
pretty specimen of *Eloota Sudetica*.
Your "offerings" will be very ac-
ceptable.

Dr. Bailey writes me that he re-
ceived twenty-three applications
for the mosses he offered in
January. They were desirable
ones and probably that is
about the maximum number.
With thanks,

Yours sincerely,
Harriet Beechn.

Chatham, N. Y.

May 12, 1803.

My dear Mr. Collins:-

I shall be glad to have your "offerings" to the Miss Chaplin. Whenever you have more to contribute they will be very acceptable.

Sincerely yours,
Sarah Wheeler.

Chatham N.J.,
Sept. 10, 1903.

My dear Mr. Collins:-

I am sending to you a package of mosses containing those offered in the July Bryologist together with some others which were collected by Mr. A. J. Siele in the vicinity of New Westminster B.C. and sent to me in bulk for distribution to Chapter members. He has just sent another installment which I hope to offer in the next Bryologist.

I shall be very glad to know
about your "offerings", they will
be acceptable. There will be a
meager list for November. I fear,
every one has been collecting
probably, and later we shall
have the results. I am just
home from the White moun-
tains where I found a rich
field.

Very sincerely yours,

Garrett Hulse.

My dear Prof. Collins:-

I send the desired specimens. The *Fontinalis* is not of the same lot which I sent before Dr. Grout has named this. I think the other was ^{quite} not the same, Mrs. Smith considered it a variety of antipyretica, though she left the question open for further consideration.

May I look to you for some contributions to the list of offerings to be announced in the January Bryologist? They will be very acceptable.

Your card of thanks was received some weeks ago - there was but one - and I am sure you were quite -

welcome to the small share I had
in sending the specimens. The
Chaplin is very much indebted
to Mr. Gill for his interesting
specimens. Sincerely yours.

Harriet Phoebe.

Chatham, N. S.

Nov. 7, 1903.

My dear Mr. Collins:

The *Brachythecium*
grew abundantly near Randolph
N. H. especially near the base of
Mt. Madison and was quite
characteristic in its aspect,
with springing, arcuate branches,
bright, deep green in color and
spreading in thin mats over
decayed leaves. It is not improb-
able in gathering a large quantity
that something else may have
strayed in and been overlooked,
for a thorough examination of every
part is impracticable.

Chatham, N. H. Yours sincerely,
May 5, 1855. Harriet Wheeler.

Chatham, N. Y.

Jan. 5, 1909.

My dear Mr. Collins: -

I regret that my supply of Dohlia is exhausted and that the last of the Dozonacium has been distributed. I sent the few remaining packets of the former last week to Mr. Chamberlain for his foreign package.

I am substituting something else and a Racotitrium that has been rather puzzling. Sincerely yours,
Harriet Whalen.

Pawtucket, R. I. March 27, 1902

Dear Mr. Collins,

I shall be pleased to be at the
Herbarium at 3 P.M. Sat. March 29.
Thank you very much for remem-
bering Jasione.

Hastily yours,
J. E. Whipple.

telling would afford me
more pleasure. The hour grows
late and I must close.

Yours Respectfully
Edw. E. Whipple
58 Lonsdale Ave

Dear Mr. Collins

You will I trust
pardon my seeming neglect
in not answering your kind
letter ere this. I am sorry to
say that I think for
the present you had bet-
ter withdraw my name at
the Botanical Club. My reasons
are these. My wife has been
under the Dr. care over a
year now. I have recently
changed Dr. and hope for
the best but the recovery must
be slow at its best. Then
again I feel that I know
hardly anything compared

with the other members. If I had more time to collect or even had a fair sized collection I would feel different about it. This season I have had no time except Sunday and then I felt so tired I did nothing after the middle of June. 200 sheets will cover my collecting this year. I have seen only one plant that was rare (at least to me) *Eleocharis tortilis*, Schult. Have you seen a specimen from I.F.S.? I think I would enjoy a trip like the one you took last summer. I thank you kindly for your interest in my behalf and hope the time may come when I shall be a member of the club.

58 Lonsdale Ave
Providence R.I. March 29-04

Dear Mr. Collins.

You no doubt
think that I have lost all
interest in the botanical line,

But no I am still just as
much in love with it as ever
and what little time I can
spare keep pegging away at
it now I would like to
come in to the Herbarium
Sat and should like to see
you if you are not engaged
elsewhere. Will be in about 2 P.M.

Now if you are tired or have
any thing you want to do
don't mind me.

Hastily yours
Edw E Whipple

Edward Everett Whipple.

Jan 15, 1907

Mr Collins

Dear Sir

Have you at the Herbarium
a Flora of Gockey Mt. Region or
of California?

If so will you
see if what is popularly known
as Mountain Epelobium is
described; (The Latin name I
do not know) If so, and you
can send me a description
of same you will oblige
me very much. I was much
interested in the article by Mr
Fernald Additions to R. S. Flora
in "Rhodora" for Nov. Did you
go to Camplosorus locality.

I was there late in the fall and
was much pleased to find
planks abundant and in good
condition. I also noticed *Taraxacum*
Erythrospermum is still at the
old stand and multiplying.
I have found *Hepaticā trilobata*
in Cumberland P.S. Are you
occupying Prof Bailey's chair
at Brown's. If so accept my
congratulations on your success.

Yours very truly
Edw E Whipple
472 Leonardsale Ave

May 25, 1909

My dear Mr. Whipple:-

Do you happen to know a place called "Albion Woods"? I suppose it is out your way, presumably near Albion. Some plants have just been reported as collected in such a place, but I do not know whether a definite area is known by that name or merely that the woods about Albion are meant. If you know of such a place will you kindly let me know via inclosed card? I would like to learn just where the woods are, especially in which town---Cumberland or Lincoln---so that I can make a definite record.

Hope you are still searching out the wild plants in your spare moments. I've been pretty busy the past winter and spring, but have made several trips into the country lately. Should very much like to have a trip with you before I leave town for the summer. Shall be glad to hear from you whenever the spirit moves you.

Trusting you and yours are in the best of health I remain,

Very truly yours,

Manville R.F.

May 27, 1909

My dear Mr. Collins.

I can not at this time give you a definite answer to your question as regards "Albion Woods." But will try to find out what I can and let you know. I have never myself been in that locality botanizing.

If we can arrange it should be pleased to take a trip with you. Will write again after Memorial day.

Very Truly Yours
Edw. E. Whipple

Very respectfully,

F. M. Whipple

Mt. Wachusett, Mass.

July 27. 1893.

Mr. J. F. Collins.

Received your note and "Torrey Club" for which favors, please accept my thanks. I read aloud, your article and Prof. Bailey's to Miss & Mrs. Howard.

We women of the "Grand View House" are moving about as usual, in groups. Some have come and gone, again since you left us. Yesterday, Mr. Howe drove Mrs. & Miss Howard and myself to Fitchburg. True, we fell in with a thunder storm but we enjoyed it all. On our way thither, I found some fine bunches of lili-

which I am sure you will be pleased to receive a specimen of -
The find was in Westminster.
I remember that you and Prof- both said it was better to press them, but these flowers seem so much alive I do not dare to do it with my unskilled hands and I am going to venture to send these in a box. I hope you will receive them to-night.

Mr. Howe showed me "Crow Hill" and "Paradise Pond." I pictured you there climbing that height and wandering among the rocks for love of Scenery and the flowers.

Hoping this finds you happy -

I remain _____

Yours truly -

Mary D. White -

Grand View House.

Pro Aug. 7 1883

Miss H. D. A. nice
2. - View No.

at the Island of Flores.

Your letter came
to me in due season also the
Dovey Bulletin and the like.
The latter was a little wilted but
I have succeeded in maintaining
a pretty fair specimen ~~the~~
~~at the same~~ of it. It is
somewhat interesting inasmuch
as at the leaves do not seem
to answer to the Earliest & nor
the leaves to the Canadian, by
possibly it is a transition ^{form} to
form. I have not yet critically
compared it with authentic speci-
mens. as I ~~shall~~ wish to do
before saying anything more alluringly
than I have. If it proves to be

and it's very hard from
either side as mentioned ~~with~~
~~handbooks~~ I will inform
you if you wish.

With kind remembrances
& best wishes to all my
~~friends~~
~~associates~~ at the Grand
View & Friends

Very sincerely yours
C. H. C.

I have seen Miss Delano. Soon Prof. Bailey will get back to his work and then you two can talk and walk together.

Yours truly -
Mary B. White.

Mt. Wachusett, Mass.
Grand View House.

Aug. 29. 1893

Mr. J. Franklin Collins.

All your favors thankfully received. You cannot realize how much pleased I was to have the answer to the names of the flowers I sent you, especially the pipewort. I had never found it before and no one in this house or the Mountain House was acquainted with it. I found the flower, as you said, in a pond, that had been drawn off so that I could walk into it a long distance from the shore, and

it positively grew in the mud,
I think it a very curious flower
and have studied it as well as
I could here. I shall do more
when I get home. The specimens
were collected in South Westmin-
ster. Am so glad they reached
you in good condition. I did
venture to press one specimen
of that lily for you, and
such as it is, I will send it.
It may enable you to study
it still further. I have
some specimens of the gall
found upon sumach which
I will send you in a tin box,
soon, and the turtle head, if I
secure it. The fields are bright
with goldenrod and I found
the white hardhack and
pressed a specimen for you.
If it is not positively worthless,

I will send that. All who
were here when you left have
gone except Mrs. Howard, her
daughter and the invalid Dunbar
and the sister who cared for her.
Mrs. H. & Miss H. are delightful
companions to me, and respond
most heartily to your message.
My time for leaving is near
at hand. Do not know whether
I shall go on Saturday of this
week or on Monday of next.
I go back refreshed and
I will say now, that, for
much that I have enjoyed
here, I am indebted to you
and Prof. Bailey -

My address after this
week will be -
57 Foster St -
New Bedford. Mass.
I mean to write you after I

Fitchburg, Jan. 18, 1886
Mr. J. F. Collins,
Providence, R.I.

Dear Sir:

When Mr. E. A. Hartwell returned from a visit to Providence, he mentioned you as wishing to exchange Botanical specimens and to correspond with students of Botany; so I have taken the liberty of writing to you. I have not very many duplicate specimens at present, but I can probably supply you with any of our native plants during the next season. However I should be glad to correspond with

you during the winter if it
is your pleasure to do so.
I cannot claim to be much
of a botanist, but as to the
excellence of my specimens
I refer you to Mr Hartwell
teacher of Botany in the
Fitchburg High School.

My specimens, except the
mosses & lichens are mounted
upon 32 pound paper
and measuring 11 x 17 inches.
The paper for mosses, etc, is
28 pound, 6 1/2 x 11 inch paper.
I have about 100 of the more
common specimens for exchange
and these are mounted on
the small paper.

I will send you a copy of our
"Flora of Fitchburg" with the
specimens marked that I

have for exchange, and I
would like a list of yours
also if convenient.

Yours respectfully,
Geo. F. Whittmore
63 Mechanic St
Fitchburg
Mass.

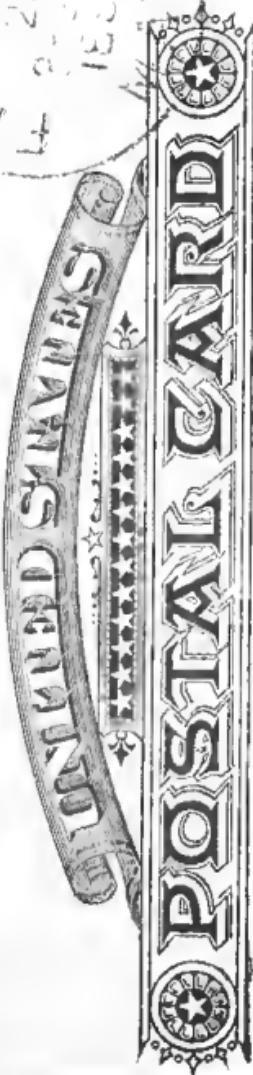

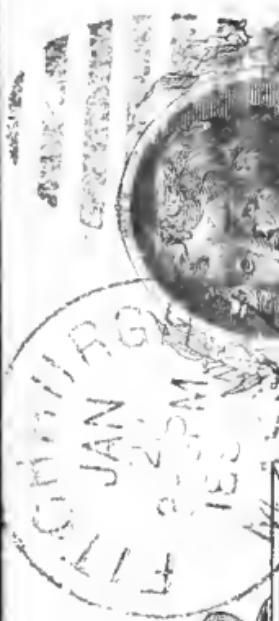

Fitchburg, Jan. 22, 1886

Dear Sir:

I am in receipt
of your card of the 20th, and
in reply would say that
certainly I intended you to
keep the catalogue. In
regard to the Morris list,
I shall have one in a few
days so that you can
send the numbers all-
right. My duplicates are
mounted on the 6½ x 11½
paper, and by slips of pa-
per. I have also a few extra
duplicates that are not
mounted, if you prefer
those.

Respectfully Yours

GEO. F. WHITTEMORE
63 Mechanic St.
Fitchburg
Mass.

Printed on the address to be on this side.

$\text{C}_2^2 + \text{V}_1$ Jan 2011 08:00

Hee Lin;

Specimens I should probably remount first
in my own herbarium ^{before placing} $(16 \times 10\frac{1}{2})$
would be very easy unless the ~~specimens~~
themselves were glued to the paper.
If you prefer to send mounted duplicates
(mounted by allies) it will make no particular
difference to me ~~what~~ ^{except} you must not
expect mounted duplicates in return
as I have none.

Enclosed please find a list of my
duplicates - all in their ^{order}
except about 20 or 25 ^{that have been} mounted since
Oct 1885 You can send my duplicates
right along by C. S. Blair if it is

your pleasure and I'll do the same by you as soon as I receive a list of ~~your~~ ~~desirables~~: what you desire. Please state whether they are printed or not.

To Geo. F. Whittom

Chelobite, 1782.

GEO. F. WHITTEMORE,

EXCHANGING NATURALIST,

FITCHBURG, MASS.

63 MECHANIC STREET.

Fitchburg, Jan. 29, 1886.

Dear Sir:

I have been away so
that I have but just received
your letter of the 24th.

My catalogue has not yet
arrived, and I have sent to the
publishers to see about it.

However I have made a copy
of your list and so can return
your original copy.

Now I have been thinking, my du-
plicates are mounted on small
paper (principally), and there-
fore will not fill up your pa-
pers; also some are not complete
as I would wish.

I am sorry to disappoint you,
but thought perhaps you would

be better satisfied to wait till
spring and get complete spec-
imens. By incomplete I mean
that of some I have not the
root and of some shrubs, no leaves.
I can furnish you with the flow-
ers of all the specimens you
desire, and of a few, the complete
specimen, such as: *Tussilago Far-
fara*, *Viola cucullata*, var. *alba*,

Viola rotundifolia, etc.

Please write and let me know
whether you desire the incomplete
specimens as soon as possible.

I will send the complete
specimens as soon as possible.

My specimens are not poison-
ed.

Respectfully,

Geo. F. Whittier

63 Mechanic St.

Fitchburg, Mass.

Fitchburg, Feb. 9, 1856.

Dear Sir,

I send your list of plants with this letter.

I can only say that I wish they were better specimens, but I have kept a list of them and shall send you more complete ones as soon as I can collect them next season.

However perhaps they will be of some use to you as they are.

I cannot send you my desiderata yet, for I have not yet succeeded in obtaining a Mann's Catalogue.

Please write and let me know if you get the specimens

all right, and also please let
me know what amount of mo-
ney it is necessary to send
Mr. Mann to obtain one of
his catalogues.

In the mean time I remain

Yours truly

Geo. F. Whittmore
Fitchburg

63 Mechanic St.

Mass.

Fitchburg, Mar. 11, 1876.
J. F. Collins,
Dear Sir:

I have at last
obtained my Mann's catal-
ogue, after much delay.

So I am now send you a
list of what I desire, which is
as follows: —

234 - 257 - 264 - 270 - 272 -
1802 - 1836 - 1843 - 1853 - 1876 -
1913 - 1917 - 1920 - 1924 - 1927 -
1936 - 1990 var 4 - 2000 - 2001 - 2073 -
2172 - 2241 - 2243 - 2276 - 222 var 2.

Extra (if not in)
18 - 47 - 217.

I have bought a collection
of 500 so I have a few more
to exchange.

Can you tell me of
any botanists in the central
or western states who wish
to exchange?

Respectfully

Geo. F. Whittmore
Fitchburg
Mass.

63 Mechanic St.

(Copy)

Providence, Mar. 14, 1886.

Dear Sir:-

Reid. your letter of the 11th inst. in due time. Enclosed please find the labels of your desiderata which I send along with this letter as I have already packed them. One specimen I ~~of~~ overlooked till I had the package ready for mailing and have tucked it in under the outer wrapper where it will go safely I think. The top of the package is that with the address on it. (it will be easier to open from the top)

In regard to the specimens you sent me, I have not until a very recent day, had an opportunity to examine them closely. at which time I found you had sent me the flowers

of *Erigeron bellidifolium* labeled
E. glabellum; *Gaultheria resinosa*
labeled *G. procumbens*; *Ulmus Americana*
fruit labeled *U. fulva*; The ^A *Salix*
minimilis sterile catkins are probably
correct but the fertile are not. The
catkins labeled *Salix nigra* are not
~~correct~~. Several others ^{specimens} are doubtful
but ~~may~~ probably turn out all right
when ^{I see} you send along the complete
specimens.

The numbers in my specimens correct
not to the numbers on the labels. Several
of them are not as good as I would wish
as ~~they~~ (in 2 or 3 cases) ^{they are the} being the last ones
I had.

Please let me know if my ~~pack~~
plants reach you all right and
prove satisfactory.

I never did but very little exchanging
out side of N. E. or perhaps I could

give you the names of some
exchanging botanists.

Where were yours collected?

D. G. D. McCallum -
Saskatchewan
- 1900

Fitchburg, Mar. 20, 86

Mr J. F. Collins,

Dear Sir:

I received your letter and specimens in due time, and they are entirely satisfactory.

I am sorry that the ones I sent you were not equally so, but, I assure you, the matter will be rectified as speedily as possible, and satisfactory specimens sent you.

In regard to those which you find are wrongly named, it may be that I have made a mistake about them, but I shall get those that are known to be genuine as

possible and send them to you. If you find any others that you doubt, please let me know and I will rectify them, for I mean to give no one any reason for suspecting me of unfairness.

I have delayed writing this letter a little to prepare those data, but have not had time to collect all yet, and so will send as soon as I can.

Very Respectfully

Geo. F. Whittmore
Fitchburg
Mass.
63 Mechanic St.

Fitchburg. Apr. 21, 1886
Mr. J. F. Collins
Dear Sir:—

I received your letter of the 23rd last in due season, and should have answered it earlier. I was glad you criticized the specimens I sent, and want you to always feel at liberty to do so.

You asked if I was interested in any particular branch of botany; I am very much interested in the collection of mosses and lichens, but know so little about them that I can make but little use of them. I desire to complete as far as possible my list of Violets, Willows, Oaks, Aster, and Goldenrods.

On a collecting journey a day or two ago, I came across a distinct bed of Hepaticas having five lobed leaves. Do you think these can be a new variety or only a freak of Nature?

I thought that, they being a distinct bed and all alike, they might be a new species.

As soon as the specimens are sufficiently pressed and prepared I will send you one.

Very Respectfully
Geo. T. Whittmore
63 Mechanic St.
Fitchburg
Mass.

Oaks.

Quercus, *rubra*

cucullata.
agittata
rhombescens.
" *vaccinifolia*
canina

I have done comparatively nothing
in the asters and goldenrods and so
any specimens would be willingly
accepted whether they are found here
or not. L. F. M.

Fitchburg, May, 19, 86
Mr. J. F. Collins,
Dear Sir:-

Yours of the 16th
at hand. I should be much pleased
to receive some of the Hierochloa
borealis and will send along the
Hepaticas in a day or two.

It was so late when I obtained
the specimens that most of the
old leaves had gone by, and the
new spring leaves were not yet
started; so I have but a few
leaves left now, but am going
to get some more as soon as pos-
sible. I enclose a list of the
plants mentioned that I have, and
should be glad to be enabled
to get more.

Fitchburg seems to be rich
in new specimens this year.
A few days ago, I found a violet
differing from any I have seen
before. It is white, but the leaves
almost exactly resemble those of
the rotundifolia. I have sent
a specimen to Prof. Asa Gray
to see what he will call it.

I enclose a specimen for your
self, and would like to know if
you have seen its like before.

Hoping to hear from you
soon, I remain

Yours very respectfully

Geo. F. Whittmore
63 Mechanic St., Fitchburg
Mass.

Fitchburg, May 25, 1886
Mr J. G. Collins,

Dear Sir:-

Yours of the ~~25~~ inst at hand. The specimens came all and I am very much pleased with them. We have just received an installment from J. A. Rose, of Crawfordsville, Ind.

I suppose you know that Mr Arthur B. Simonds of this city, who has ^{been} corresponding with you to some extent, is going to the west; if you can supply me with a list of the plants you desire from this vicinity, I may be able to get them for you, or at least such ones as Simonds leaves too early to obtain.

Our chapter of the A. A. has
an entertainment next Friday
evening to celebrate Agassiz' birth-
day. I enclose a programme.
We should be glad to ~~have~~ have you
come up and attend, and I assure
you we would see that you were
suitably entertained.

Hoping to hear from you soon
I remain yours

Very respectfully.

Geo. F. Whittmore
63 Mechanic St.
Fitchburg
Mass.

Fitchburg, Mass. Oct. 26, 1886

My Dear Sir:

The collecting season has about closed, so I thought you might wish to exchange further, or that you might have some specimens to sell. My stock of duplicates has been greatly enlarged, and all are in first class condition. If you desire to exchange, shall be pleased to receive your list and to forward mine. You see Traub's catalogue I believe. Hoping to hear from you soon I remain

Yours sincerely

Geo. F. Whittemore

NEW ENGLAND BOTANICAL CLUB.

Boston Apr 6th 1896

Mr. J. Franklin Collins,

Dear Sir,

You have doubtless by this time received notice of your election to this Club. Your name was proposed by Mr. Bailey who has probably informed you of the purposes of the Club.

I enclose you lists of the present members that you may know who we are. The entrance fee is the only one for Non-resident members.

We hope you may decide to join & should be glad if you could attend some of our meetings which will be duly announced to you.

Respectfully Yours
Emile F. Williams
Recd'g Secy, Treas'r.

Dear Sir,

Kindly give me your first
name in full for the Club list
to be printed shortly by the

Dear Mr. Collins,

When you come up to the Club meeting next week will you just as brief bring with you that sheet of *Listera convallarioides* which is queried auriculata - It was collected by W. Condon June 20. 71 Lyndon Vt. in the Brown University Herb. - I find no reference to Vt in *Listera auriculata* article of Wiegand & I should like to get acquainted with the species if possible. Fernald can set me right.

Pinchely Yrs,

Emile F. Williams

Boston Nov. 15. 99

My dear Mr. Collins

Ever since my visit to the
Brown University herbarium
I have been worrying over
two sheets of *Fraxinus nigra*
collected one by Olney at
Cumberland R.I. Sept 27. 54
& the other at Smithfield
without date. There are
other loose & unnamed
specimens & I should be
ever so much obliged to
you if you would get

together this material &
let me see it again. I will
gladly pay the expenses
both ways & name it
for you into the bargain
if you will do this for
me.

When I looked at the
Fraxins I knew less
about it than I do now
& I want to see it again
very much.

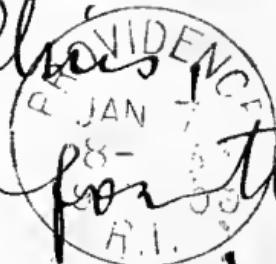

It would be best to
send it to my office

42 Franklin Street & I'll take good
care of it.

Hoping I am not asking something
which will inconvenience you

Yours truly,
Emile F. Wilhelms

Dear Mr. Collier

Thanks for the information
for it comes just in time.

Hope is a fine street to live
on. It will incite you to
live. Teddy Roosevelt's strenuous life

Sincerely yours
L. F. W.

June 6. 1900

My dear Collier,

Fernald tells me you will go to Katahdin with us, & Dr Kennedy & myself are overjoyed at the prospect. I want to propose to you a further trip in the north of Maine after our camping trip is over. It's too good a chance to miss to go to Fort Fairfield or Fort Kent.

Prof. Sargent is to give a garden party to the Boston Club next Saturday at his place in Brookline when his rhododendrons are in bloom — It's a sight for the gods & you ought to come up. You will receive an invitation in a day or two & meanwhile please

Stir up the Providence Creeds & get as many
to come as possible.

If you can come please. Come prepared
to stay at my house over Sunday & we'll
take in a botanical trip next Sunday &
we can talk over the Maine trip at
the same time.

I shall hope to hear that you are
coming

Sincerely yours
Emily R Williams

Boston, June 24. 1900

My dear Collins,

I hear from Fernald
that you are in it for the
Katahdin trip & I am very
much delighted. I want
now to know if you can
possibly be away till Aug
1st. If so will run up
to Fort Kent after doing
Katahdin & I want you
to come as my guest. I
haven't known what on
earth to do with myself

if you don't say yes.
Furnals describes Fort Kent
in glowing colors & its
the opportunity of our
lives as we shall be so
near it. You can collect
for the Botanical Herbarium
open Knobs & enrich it
infinitely as well as your
own. Liparis is drying
nicely & will soon be
ready to send you.

I am only just back
from a week of most

interesting collecting in New France or
Nordest. Haven written you earlier.

Do say yes

Very sincerely yours
Emile F. Williamson

Dear Collins,

I'm very glad to hear you are ready
for anything after Mt. Katahdin (the condition
of your father permitting of course). We shall
have a fine time. I shall leave a trunk
for the subsequent trip at Stacyville &
you had better do likewise. You will certain-
ly want a good supply of dryers. They are
so bulky I fear I can hardly offer to
carry enough for you so you had better
ship yourself a lot by freight as you
suggest or take them with you in an
extra trunk. I have sent you today by

express a memento which I hope you will accept from me. It is not new but I think it is bound. I shant see you till July 5th if you are going to join Fernals. We'll arrange everything else when we meet.

Sincerely yours
Emily F. Williams

MASS.

.....November 15, 1900.

Dear Mr. Williams:

I am very much obliged to you for the specimen of Crataegus which has come to me through Mr. Fernald. I shall be very glad to obtain a photograph if you can get it for me from Mr. Collins. Your specimen represents a form which I have seen before but know very imperfectly. My opinion now is that it is undescribed.

Yours faithfully,

Emile F. Williams, Esq.
42 Franklin St., Boston.

C. S. Sargent.

Boston, Nov. 18th = 1900

My dear Collins

Prof C.S. Sargent writes
me the enclosed concerning
our Crataegus. Can you
strike off a photo or two
for him. I'm rushed to
death just now as my
bookkeeper's mother is very
sick & business is very
lively. Fernald is busily
at work getting his Ktahdin

photos sent.

Sincerely yours
Emile F. Williams

42 Franklin St.

Fort Fairfield, Me. Aug. 16. 01

Dear Collins,

The Katahdin trip has to be given up.
I could not get away so long from com-
munication with my business so I came
up here again with Dr. B.L.R. + Fernals.
We've been to Ashland, Ft. Kent, Van Buren
& here + go home next Monday.

Sincerely yours
E.F.W.

Dear Collins,

That is good, true Coralloriza rimata and I
am very glad indeed to get it from R. J.
Thanks very much

Sincerely Yrs,
E. F. Williams

June 2. 03

Dear Collins,

I'm without either *Pogonia* *verticillata* or *Lonicera sempervirens* from R.I. & of course I should like both very much. Especially - do the orchid. I wish I could ask you to dinner next Friday but I'm going to a five o'clock wedding & I shall not get away I fear much before Club time so I'm obliged to omit a fine honored

Custom this time.

Sincerely yours
Wm F. Williams

My dear Collins,

I'm ever so much obliged to you for the Woodsia, which is glabilla, I am sure. I have collected it at Willoughby & Mansfield & it has all the ear marks. That is a very valuable addition to Maine & I am more than glad to have it represented in my herbarium.

Very sincerely yours,

Ernest F. Williams

My dear Collins,

I remember the ledge you speak of perfectly, & my impression is there is lime in that rock. I don't know the geological names for rock but I remember we commented on the fact at the time & a year later when we stopped there - Dr B.L.R. - Fernald & myself. Further than this I cannot help you.

Pincerely Yours
Emil F. Williams

Apr. 5, 1904

Dear Mr. [unclear]

Since the ~~introduction~~ ^{admission} of a new member
to the C. & S. B. S. Club I have proposed at
the last meeting, ~~the~~ three men for my selection
and I hope you will accept them. It seems to me that all of these ~~men~~
would be worthy and desirable members although I
realize that the Council may ^(not necessarily) think otherwise.

I understand that the Council has taken a
more rigid stand in regard to ~~qualification for~~
^{membership} ~~new members~~. Of this understanding I consent.
It is possible that ~~this~~ increased standard ^{will} allow
some or all of these men I have proposed.

It is probable that no ~~one~~ member of the council
knows anything about these ~~four~~ men personally. Therefore
I am taking the liberty of writing to you and Mr. Farnold
about them. Please do not think I am going to ask
you to vote for them at the Council meeting. I don't
want anyone to do that if they think the candidates
do not come up to the present requirements. I may
only object in writing to you and let Farnold know
to let you know some facts about these men and

thus not have all of the members of the Council go to
the meeting entirely ignorant in regard to ^{what} ~~the qualifications~~
~~that~~ ~~for these small islands~~

Since I have been a member of the Club I have taken
some visitors there. Two of these are now professed
for membership viz. Messrs. Bullock and Whipple. Which
you may remember one or both of them.

M. E. K. Bullock is a civil engineer, about 67
years of age. A few years ago on account of failing
health, due largely to overwork in the high altitudes of
the Rocky Mts.; he ~~had~~ gave up active engineering
work. (For more than 30 years) He has been
interested in Botany ~~at~~ ^{at least} finding but little time to
~~carry~~ his pastime to hobby in a scientific manner.
He tells me he has a few specimens in his herbarium
collected 52 years ago when he first became interested.
Half or more of his collecting has been in N. E.
His herb. is, as judging from numerous Specimens
which I have seen, composed of well selected,
carefully dried and nicely mounted specimens, though
it is not very large ~~is~~ probably not exceeding
1000 sheets. He ^{usually} does his own determining ~~of~~

The only specimen he has brought to B.L.S. numerical
have been troublesome things from the Montana
Rockies.

(39 years old)

Mr. Edw. E. Whipple is the Pawtucket naturalist
whom I first met a few years ago. Mr. Chamberlain
and I have made one or two trips with him and
found him a modest, ~~but~~ intelligent man, well posted
botanically and enthusiastic about things which
over rhodora which he evidently reads carefully
and applies the knowledge thus gained to his own
^{Specimens} herbarium. Unfortunately Mr. Whipple seems to have
only Saturday afternoons & Sunday mornings for botanical
work, and not always there apparently. Since I
became a companion with him he has begun a
herbarium which now numbers about 500 specimens
practically all collected in the vicinity of his home.
These specimens are well made and very neatly mounted.
and almost invariably correctly determined.
He has been considerably interested in the violets ~~of~~
of his region. One day he came to the B.L.S. Herb. and
appeared a bit discouraged. I learned he had been trying
to apply Pollard & Green's description to R.T. violets with
somewhat unsatisfactory results. I enlightened him ~~on~~
^{botanical} ~~extensively~~ ~~for~~ in regard to the general opinion of the

above said description, You should have seen the relieved look that came over his face when he realized that ~~he~~ ^{the} ~~was~~ ^{only} one who had ~~formal distinction~~ ~~to~~ The trouble was ~~most~~ ~~with him~~ due to ignorance on his part as he had apparently forced.

Mr. George W. Gilman is an active civil engineer 55 years old. He formerly lived in Vermont (Windsor) and considerable of his collecting was done there. He has also done considerable ~~at~~ collecting here in P.I.; also some in Alabama & Cuba. ~~and recently~~ He has exchanged ~~extensively~~ extensively and now has an excellent herbarium of about 4000 different species including about 400 species of ferns, a group in which he is especially interested. He came to Prov. some 15 or 20 (?) years ago highly recommended by the late Dr. S. J. Jefferup of Dartmouth. I have had the pleasure of making several trips with him and found him an acute observer and ^{have} a ~~most~~ careful collector and a ~~most~~ ^{great} one in assessing

gentlemen.

If after reading the above you feel inclined
to say a good word for them - I shall be glad
although I shall not expect ^{you to do} it unless you
feel that it will be to the best interests of
the club ^{to do} so.

June 7, 1908

Dear Mr. Davis:

Professor W. T. Gorden of Brown University tells me that both Taft's Hotel in Chappaqua and the Wickford House in Wickford are very good places to stay for a few days. He is acquainted with both. From what he says I should gather that the Wickford House is a little the better of the two although he did not say so definitely at first sight. At Chappaqua it would be necessary to get a team if one wished to go any distance from the village. It is far there is a trolley line running from New York City for 4½ hours which might be used if one wished to go a considerable distance to the north or south. Both regions are good for botanizing. I am communicating this information with the idea that you will be glad to know of Prof. Gorden's opinion of the two places.

BOSTON, MASS., U. S. A. Aug. 10, 1908.

Mr. J. Franklin Collins,

Department of Agriculture,

Washington, D. C.

My dear Collins,

I received your letter of August 3rd last Friday. It was forwarded to me at the Profile House. I had not heard a word from Fernald, and therefore waited until my return to Boston today. I telephoned to The Gray Herbarium, and I was informed there that Fernald had been extremely ill with sea-sickness on the way from Boston. This developed into some kind of a liver trouble, so severe that it was deemed advisable for him to leave the expedition at St. John, and go home to Orono. He has been there now some days, and is very much better, and spoke of botanizing a little around Orono in his last letter. Fernald left the expedition before the serious storm that you speak of.

I have been away ever since July 2nd, - up to the 20th at Bread Loaf Inn in Vermont, where I picked up 371 sheets of plants, mostly common things, to complete my Vermont collection. After that I went to Breezy Point at the foot of Mt. Moosilauke, where I did the same with New Hampshire plants, putting in about 250 sheets. I am back here now for good.

I was glad to hear from you. You must have enjoyed the work, although it must have been of a pretty strenuous nature. I have no doubt

a letter addressed to Fernald at Orono, Maine, would reach him.

Sincerely yours,

Emile F. Williams

Jan. 22, 1910.

My dear Williams:-

I presume you have the figures that Fernald put on the blackboard at the time of the Annual Meeting of the Club to illustrate the proportional number of plants in the Club Herbarium from the different N.E. states so far as a few representative orders were concerned.

Will you give me a copy of the figures on the inclosed postal card?

I have a specimen of Sclerolepis uniflora laid out for you. I shall take it up to the next Club meeting if I do not forget it. It seemed odd to have you absent from a Club meeting.

Cordially,

	Me	NH	DE	Mass	R.I.	Conn	Total

Guide to the trees. It is fine & I am glad to
have it -

Sincerely yours
Arthur F. Williams

Mr. Apr. 22, 1890.

Mr R.S. Williams, Columbia Falls Mont,

Dear Sir: Mrs. E.G. Britton
informs me that you are soon
to have some sets of American
mammals for distribution.

I would be pleased to know
when you will have ready -
as to specimens, price, &c.

Sincerely,

J.W. Collins

Columbia Falls, Mont.

April 28, 1896,

Mr. J. Franklin Collins

Dear Sir,

I have been working for some years trying to get some sets of mosses ready for distribution. Perhaps they will be ready in June of this year. There will be over 200 species, probably at least 210, and about a dozen sets of each, which I believe, will be about as near alike as they grow. The specimens are only such as I have collected in Montana. I think they will be about \$10.00 per set, not including postage.

Yours truly

R. S. Williams.

New York Botanical Garden,
Bronx Park,
New York City.

March 1st, 1910.

Prof. J. Franklin Collins,
468 Hope Street,
Providence, R. I.

Dear Sir:-

Mrs. Britton is in Cuba at present and your letter regarding Polytrichum has been turned over to me. The specimens in our set under no. 565 are evidently all P. formosum, as determined by Dr. Frye, so it would evidently be a good thing if possible to get some specimens from Kindberg of his variety P. canadense. The enclosed scraps fairly represent all so the so called P. Swartzii in our collection.

Yours truly,

R. S. Williams

Mar. 3, 1910

Mr. R.S.Williams,
New York Botanical Garden,
New York City,

My dear Mr. Williams:-

Thank you very much for your letter and the
inclosed specimen of Polytrichum Swartzii. I judge that it may
be pretty near what I was looking for when I get a chance to exam-
ine it.

Very truly yours,

From Mrs S. B. Wilson

1884 or 1885?)

||||| To the cemetery
V V V V V

Start on Smithfield Pike along side of North Burying ground west of it follow on past Sale's bleachery at the right till you pass friend's meeting-house on the left through the ancient village of Massassuck whose newly repaired grist-mill is at the left and also butterfly factory; fail not to observe the outstretched wings of the butterfly—Also near by at the right the unique mansion, at first the residence of Stephen Smith, who ornamented his grounds with every variety of wild flower possible & also cultivated, or transplanted many to Quimonaket. Soon after passing butterfly factory you come to the divergence of two roads, or one, take instruction from the guide board which says 5 miles to Georgiaville, passing down this, to the left, go over the brook & ascend the other side a rod or two when you will see on the left side of the road some flat rocks & 4 or 5 unhewn timbers lying at the foot of them to smooth the passage of wheels, also near a spectral tree will delight your imagination seeming to guard the entrance to the ^{once} enchanted forest. Walk boldly over these timbers & rocks and following carriage way you may soon take possession of the pine skirted ravine in the name of Botanical Science.

Sep. 17 1906

Prof. J. F. Collins.

Dear Sir:-

I am sending under separate cover a mint (?) which is quite common here but which I cannot name from Mrs. Weston Dana's "How to Know the Wild Flowers".

The buds are in hard compact flat tipped clusters at the ends of the branches. Only a few open at anyone time. The flowers are white with purple spots on inside of petals of which I think there are four. They are so small that I do not know how to send them so that you could examine them. If you wish I will be glad to follow any directions you may give me but I have little doubt that the plant will be familiar to you. It grows in dry sandy fields with Bayberry, Goldenrod etc.

I was at one time an instructor in Chemistry at Brown which must be my excuse for turning to your department. Prof. Bailey can teach that I know no botany.

Begging you to accept in advance my thanks for any light you can throw upon the identity of my plant

I remain yours very truly C. E. Wilson '83

468 Hope Street
Providence, R.I.

Nov. 21 1913

Mr. J. H. Wilson
Arnold Arboretum
Concord, Mass.

Dear Mr. Wilson:-

Very kindly called by the entertainment committee of the Rhode Island Horticultural Society to find out if you could come down to Providence on the evening of November 19 and give an illustrated lecture on some phase of your Illinois travels that would be of interest to a horticultural audience and also to ascertain what your charge would be for the same.

This date is a long distance ahead perhaps but the committee wished to get an idea as to whom they could have for certain dates for the remainder of the year. If you will let me know about this matter I will communicate with the committee and transmit their reply to you when I learn what it is.

Very truly yours

ARNOLD ARBORETUM.

March 22, 1913

Mr. J. Franklin Collins
Providence, R. I.

Dear Mr. Collins:

In reply to your letter of March 21st, I beg to inform you that my fee for lecture, illustrated with one hundred stereopticon views, is \$25.00, the Society to provide the stereopticon and operator.

If these terms are agreeable to your Club, I shall be happy to come down on the evening of November 19th next.

I am, dear Sir,

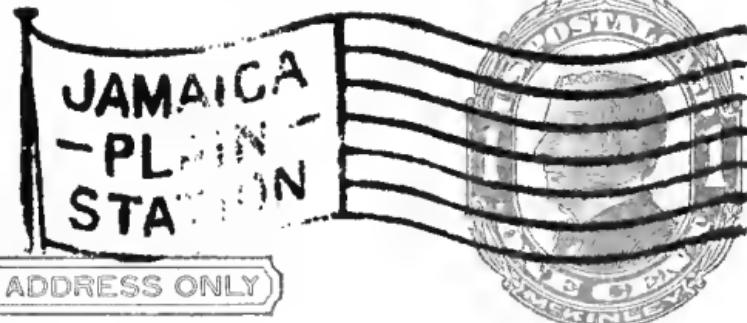

Yours very faithfully,

P. H. Wilson.

Dear Mr. Wilson:-

I have your letter of Oct. 30. I have telephoned to Mr. H. L. Madison who is chairman of the Entertainment Committee of the Rhode Island Horticultural Society, regarding your queries. He says he will write you concerning particulars within a day or two. He says that the arrangement that I made with you still holds for the evening of November 19th. The lecture is to be given in the lecture room of the Providence/ Public Library on Washington street, about 6 or 7 minutes walk from the R. R. Station, at 8 p.m. It is quite likely that Mr. Madison will invite you to come down so as to be here about 6 p.m. and have supper with a few of the officers before the lecture. This is what is often done with out-of-town lecturers, though not always.

I am sorry that there is a little prospect that I shall have to be in Washington on that date, though no certainty at the present time. I shall try and arrange to be here.

Very truly yours,

Mr. F. Franklin Collius in Providence

In Besitz ihres Karte vom 28. Febr. 07
ihnen zur Miseilung, dass ich Ihnen
den Band "Moose" aus Sigula, Krupp.
Ganzenflora apart. abgebe. Preis brosch.
